www.lcdworld.hk

LCDW Bar display, development started from 2012, MP for big size in 2013. With more than 10 years development of TFT module, makes successfully transfer to big size TFT. Now we are more focused on big size bar TFT, invest special cutting machine, vibration machine, etc. Increase the engineer in different field, like module optical engineer, mechanical structure engineer, electrical engineer, in order to fast increase in the market.

# ..the process..

5

- ▶ Choose your TFT device lenght
- ▶ Choose your TFT device height
- ▶ Choose the TFT brigthness you need
- ▶ Any special features? Just ask..
  
- ▶ LCD WORLD will offer you the solution according your needs..
